NORTH ANKAR FIREBRICK

A hand-pitched volcanic firebrick from China, North Ankar Firebrick is one of our best-selling products. Its unusual, sophisticated color suggests the northern sky at dusk, or a cool swim in dark quarry waters – an elegant alternative to manufactured firebrick. Stone firebrick belongs to an ancient tradition dating back to the Romans, who quarried volcanic materials from Mt. Vesuvius to line

their ovens. It's edge, visible when installed, has a rustic, hand-crafted finish, ideal for running bond and herringbone firebox patterning. The reflection of firelight on such textured surfaces enhances the beauty of the material, creating an ideal backdrop to compliment any décor. North Ankar Firebrick will bring warmth, exquisite simplicity, and timeless beauty to any firebox project.
