## VALLEY CREST

The corporate campus for the Valley Crest Landscape Companies outside Los Angeles, California is a striking example of the power of hardscape to shape our experience and sense of place. In a series of bold strokes, the pavements work to guide the eye and direct the flow of pedestrian and motor traffic. The textures and patterns create subtle rhythms that are the pulse to the larger planted environs. The effect is stunning.

As the paving winds around the exterior of the campus, it creates textural tapestries and quiet outdoor rooms ideal for the creative stimulation of the mind. One will also find

larger group areas with built in benches mounted to perimeter walls, promoting collaboration and exchange. As the paving moves interior, it softens in tone and texture to become an elegant courtyard filled exotic plants, quiet water and the hushed tones of a successful corporate center. Oversized wall panels on the interior match the pavements providing the backdrop to the large-scale plants and artwork.

RAS is proud of our decade long collaboration with Valley Crest and thrilled by their keen enthusiasm for our products.

### PROJECT PRINCIPALS

LANDSCAPE ARCHITECT :  
Jim Hyatt and Burton S. Sperber

STONE DESIGN :  
Richard Rhodes, Rhodes Architectural Stone

58-74 STATION STREET  
NUNAWADING VIC 3131, AUSTRALIA
