ANTIQUE SALMON GRANITE

Antique Salmon Granite once formed the roads, bridges, and rice threshing platforms of South China. The rapid building of cities, freeways, and bridges over the past two decades has led to the replacement of much of this material with concrete and asphalt. Our reclamation teams work ahead of major infrastructure projects, such as the expansion of a port facility in Guangdong and the building of apartment complexes in Fujian. The surface of Antique Salmon Granite boasts a rich natural patina resulting from centuries

of human and animal traffic, tannins from vegetation, and minerals from ground water. Some surfaces have texture marks, where a point chisel once etched grooves for greater traction. In other instances, years of wear have removed texture, leaving the upward face smooth. We sort Antique Granite into two color groups: Salmon and Pewter for warm and cool ranges. Warm-range material is bronze, salmon, and ash. Antique Granite is best set at 4.5" thickness or gauged and mortar set.

RECOMMENDED USES

PAVERS / PLANKS	QUOINS*
VENEER	SILLS
STAIR BLOCKS	POOL TILE

*L-shaped Quoin limited to lengths of 5.5" x 15.5".
